

SynergyNet's Internship Programme

Programme objective

Every year SynergyNet organizes internship programme together with local universities. By providing opportunities for university students to conduct policy studies, the internship programme aims to stimulate the development of policy research in Hong Kong.

Programme structure

Our internship programme provides a challenging and dynamic learning environment for interns. Interns will be arranged to participate in various research activities of the SynergyNet, including:

- Policy researches and studies: Under the supervision of our research team, the interns will have the opportunities to participate in the various research projects of the SynergyNet, including our flagship research projects of “Review of the Governance Performance of the HKSAR Government” and “Review of HKSAR Legislative Council”.
- Policy seminars: In order to strengthen their public affairs knowledge, we will organize tailor-made seminars for interns.
- Managing activities and exchanges: Interns will assist in managing various forums and seminars organized by the SynergyNet. They will also have a lot of opportunities to meet with public figures from different backgrounds.

Application procedures

We welcome applications from local tertiary students. Applicants should complete the application form and pass it to the Secretariat of the SynergyNet by fax (2377 3179) or e-mail (office@synergynet.org.hk).
